

# HYDRO-WASH SPRAY GUN

## SPRAY GUN

### GENERAL DESCRIPTION

The Magnaflux® LPI System Hand Sprayers are designed to help simplify and expedite your penetrant inspection process. They provide even, controlled application of penetrants, developers, cleaners and water rinse used in the liquid penetrant inspection process. Manufactured from high-quality materials and components, they will deliver years of trouble free performance under all usage situations.

**The Magnaflux® Hydro-Wash Spray Gun** is designed for pre and post rinsing of water-wash or post-emulsifiable penetrant system parts. Its air injection boosts velocity to permit faster rinsing of hollow or rough surface parts. This applicator is advantageous for areas with low or fluctuating water pressure.
